

Project Overview

Project Name:

Financial Dashboard for Revenue & Expenses

Business Purpose:

The Power BI dashboard is designed to provide an interactive overview of financial performance. It allows users to track revenue and expenses against budgets, analyze cash receipts, and gain insights into GL accounts to make informed financial decisions. The dashboard aims to simplify the financial reporting process and facilitate better financial forecasting and planning.

Audience:

- **Finance Team:** Financial analysts and accountants will use this dashboard to track the financial health of the business, review revenue and expense trends, and ensure financial data accuracy.
- **Executives:** Senior management (VPs and Sr.Directors) and decision-makers will use the dashboard for high-level financial performance tracking.
- **Department Managers:** Those responsible for monthly expenses or Revenue.

Scope:

- **Revenue Tracking:** Monitoring cash receipts, Collections, revenue accounts, and cash flow.
- **Expense Tracking:** Tracking expenses by GL account categories.
- **Executive Overview:** Visual representation of financial transactions in the GL.
- **Comparative Analysis:** Comparing actuals vs. budget or forecasted revenue and expenses.
